Introducing the new Fence Master T1

Introducing a unique design allowing you to load from the front or side.

Fence Masters computerized controlled routers are designed for the production shop seeking an efficient, precise and affordable routing system.

Whether you are new to fabricating PVC, or are looking to increase production, our T1 can meet your needs.

All our routing machines offer the most user-friendly software and the quietest operation available in today's mar-

ket.

The unique design of the T1 lets you load the machine from the front or side.

Specifications include: Control of the x, y and z axes, Free unlimited phone support, Plug-in installation, 1 year warranty, Mastermind Fence design software and a Porter Cable Router.

Contact us for more details today.

Tip of the month

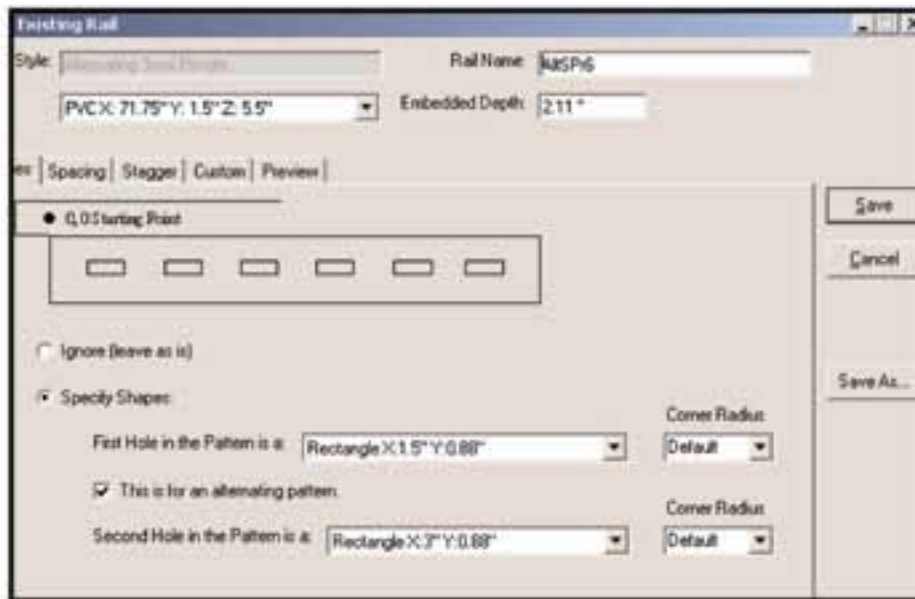

Check Your Chains

To ensure the accuracy of your CNC router, check the tension on the machine's chains. Follow the specs in your manual and make sure they are either too loose or too tight.

Call us if you have any questions.

Products & News

Save As Feature

A new **Save As** function has been added to MasterMind. Pull up an existing fence design and **Save As** a new design without having to re-enter the specs. If you are interested in adding this **FREE** feature to your software program, visit our website to download or call us for details.

Casters, set of 4

Make moving your CNC router easy with a set of four casters for **only \$100 plus shipping** and handling. Heavy duty brakes keep wheels locked when no movement is desired. Order yours today.

Tune Up Special

The fencing season will be winding down in the coming months. When was the last time you had your machine serviced? Yearly maintenance of your router ensures a smooth production line during the busy season. Now is the time to lube up and tune up. Call us today and schedule an appointment with one of our technicians for a basic tuneup which includes:

- Grease all 11 linear bearings
 - Adjust all stepper motor chains
 - Clean/grease all racks & pinions
 - Blow out electronics box
- \$225** plus expenses

Antistatic Chip Deflection Brushes

These antistatic brushes keep shop cleanup to a minimum by containing the PVC chips within the material being routed as well as providing a barrier around the bit for safety.

ONLY \$68.00 ea.

22 Corbin Ave. Bay Shore, NY 11708
